<p><b><u>Motivation statement</u></b></p> <p>Dear ACENDIO Board and ACENDIO members,</p> <p>My name is Helen de Graaf and since 2018 I am a member of the Board of Directors for ACENDIO, which I undertake with much pleasure. Being involved in ACENDIO's mission for the past 3 years has brought me much inspiration for developments in my own University (Rotterdam University of Applied Science) and Dutch Association (StichtingVDIR) as well. I have finished my master degree in Nursing Science in 2014 and since 2016 I work as an educator for the Rotterdam University of Applied Science, Bachelor of Nursing education. Clinical reasoning is one of focus themes of the university and as chairman of the clinical reasoning working group among other tasks I have guided the development of a framework for clinical reasoning within the curriculum. For the Dutch association I coordinate translations of standardized nursing languages and initiated the development of digitalization of these SNL's in the Netherlands for application in Electronic Health Records. As consultant I provide education and guidance with implementations of SNL's in different health care settings. To serve nurses in professional practice to enable nursing care to become visible and measurable is my personal mission.</p> <p>I would like to serve ACENDIO another term and assisting the current treasurer in the past months brought forward the intention to apply for the position of Treasurer for ACENDIO.</p> <p>The task of setting a trustworthy budget for a biennium which enables realization of ACENDIO's mission is a challenge off course in which pleasant collaboration with the whole board is essential. I believe that my skills, education and experience match the profile for Treasurer and look forward to extend my collaboration with ACENDIO.</p>
