

MATTHIAS ODENBREIT holds degrees in nursing science and in nursing education (MNS/EdN/RN), and is a well known nursing informatics specialist.

He has been involved in the implementation of nursing classifications NANDA-I, NIC and NOC into nursing practice for over 20 years. The main focus of his work is the integration of Standardized Nursing Languages (SNLs) into electronic nursing documentation systems.

He has developed software including clinical decision support that guides nurses through all steps of the Advanced Nursing Process. He is an internationally recognized specialist in nursing informatics and was chair of the informatics committee of NANDA-I, as well as head of the German-speaking Network for nursing languages and informatics.

He is an active ACENDIO member since 2000 and took part in the ACENDIO eHealth expert group. His keynote addresses ***evidence-based implementation of SNLs to support nursing practice.***
