Aims and tasks

According to ACENDIO's aims for promoting the development of nursing's professional language and providing a network across Europe, the aims and tasks of the committee are to:

- Activate networks for nurses in different European countries to share knowledge and do research together
- Set a broad research agenda and foster studies in the topics addressed in ACENDIO's eHealth strategy
- Support ACENDIO's visibility by fostering research and publications
- Outline criteria for ACENDIO members to apply for financial and other resources to support research activities
- Publish the criteria for ACENDIO research grants and foster applications
- Review and approve research grant applications
- Put information of research projects, milestones and final reports on ACENDIO's platforms

Research committee responsibilities and group to be put on the ACENDIO website
