## GA report eHealth Working group Implementation Year 2022

Chair: Mikko Härkönen

Members: Fabio D'Agostino, Bente Christensen, Kim de Groot, Fabiana C. Dos Santos, Renate Nantschev

During the biennium 2021-2023 the working group started work on the tasks as stated in the aim in the biennium 2019-2021:

Title: Supporting and advancing practice and eHealth

Aim: Supporting evidence-based implementation of SNLs into practice and EHRs, and bases on the ACENDIO constitution and on *Position Statements 1 and 2*

The product: The **product** of this working group is to create '**Practical Implementation Principles**' on what, how and why to implement SNL's into practice

The working group developed an electronic survey of ACENDIO members (one per member country) and a summary of the survey was presented and discussed at a workshop in St. Pölten, Austria, in 2022. Since then, the working group has met once a month in teleconferences, where the working group has continued its work with the aim of presenting a first version of the recommendation during the 14<sup>th</sup> ACENDIO conference in Rome in 2023.

The actual implementation work will continue, and the working group is ready to continue the preparatory work in the next biennium and to increase the publicity of the output in different SNL contexts.

Respectfully submitted, January 14, 2023

Mikko Härkönen, Chair eHealth working group Implementation
