Motivation statement (max. ½ page)

I finished my PhD in Nursing Science and Public Health in April 2019 with a thesis entitled "The Nursing Information System as instrument of standardization, measure and continuity of care for chronic patients". Therefore, my scientific activity is mainly focused on Nursing Minimum Data Sets, standardized nursing languages and chronicity.

Over the past 8 years, I have developed experience in education for the Bachelor's and Master's Nursing degrees as well as various specialized programs, especially through teaching on research methodology. Since January 2022, I have been appointed the Director of the Master's degree in Nursing and Midwifery Sciences at the University of Rome Tor Vergata.

Moreover, I'm an active member of the Italian Society of Nursing Science (SISI) since 2017. In the same year, I became a member of the ACENDIO association in which I subsequently became a board member starting from 2021.

In these two years in the board, I have had the opportunity to understand what the responsibilities of the board are towards the members and what the responsibilities of the secretary are towards the board and the members.
