### Candidate

Title: PhD(c), RN  
Name, First Name: **Klancnik Gruden Maja**  
Function: Assistant Chief Nursing Officer for Quality Development  
Institution: University Medical Centre  
City + Country: Ljubljana **Slovenia**

**Nominated for Position: Board member**

**Nominated by: Maria Müller Staub**  
**Seconded by: Claudia Leoni-Scheiber**

### Motivation statement

I am an Assistant Chief Nursing Officer for Quality and Development in the University Medical Centre Ljubljana and Teaching Assistant in Nursing care at the University of Maribor, Faculty of Health Sciences, in Maribor, Slovenia.

I am one of the founding members and Vice President of the Working Group for Nursing Diagnoses named SLONDA under the wings of the Slovenian Nurses and Midwives Association. The Group led the translation projects of the books NANDA–International Nursing Diagnoses: Definitions and Classification 2015–2017 and 2018–2020. At the moment, we as a group work intensively on the project of translating the books Nursing Interventions Classification and Nursing Outcomes Classification.

I am also a PhD candidate in nursing. My field of research is nursing documentation, especially the development and implementation of Electronic Health Records (EHRs) in connection with the theory of person-centred nursing. In cooperation with Professor Maria Müller Staub we translate and adopt the measurement instrument Q-DIO into Slovenian language. I have been actively participating in ACENDIO conferences since 2013 and contributed with different oral presentations on the topic of the quality on the Advanced Nursing Process and Standardized Nursing Languages (SNLs).

In 2021 I have also joined ACENDIO's eHealth Working Group 2 to support the education of SNLs and their implementation into education curricula.

I would be pleased to join the ACENDIO board and to bring in my expertise as well as to get new insights of board members and ACENDIO colleagues.

Date 5.01.2023
